

Central California Irrigation District

Important Water Supply Update – May 13, 2015

The District has been working with the United States Bureau of Reclamation and has confirmed an allocation for the fall September through December period. As a result the current CCID allocations are:

January through August allocation:

Tier 1 - USBR 21.25"/acre (Unchanged)
Tier 2 – CCID Wells 5.25"/acre (Unchanged)

Unused January through August allocation can be moved to the September through December period.

September through December allocation: This water may be pooled and used September through December.

NEW INFORMATION

Monthly Supply in Inches per Gross Acre

	Tier 1 USBR	Tier 2 CCID Wells
September	2.00	0.50
October	1.00	0.25
November	1.00	0.00
December	0.00	0.00
Total	4.00	0.75

We will continue to analyze forecast information and provide updates immediately if any changes are warranted or required. Again, thank you for your active participation and for your patience and understanding through this difficult water year.

Please call the Main Office at (209) 826-1421 if you have any questions.

Signed: 
Chris White, General Manager
