

# Central California Irrigation District Supplemental Water Application

## 2015 Pool 2 – Closing Date – March 20, 2015

Use this application to request Supplemental Water for 2015. Although the District cannot guarantee acquisition of the requested supply, we will make every effort to do so. The anticipated price will be \$221.42 per acre-foot. The District will be seeking landowners who wish to set aside their land to make water available for other landowners in the District. Following are some key elements applicable to every Application:

1. Applications must include a quantity, account number, signature, and be accompanied by a deposit of \$20.00 per acre-foot requested.
2. If the District is unable to acquire the entire requested quantity of Supplemental Water, the supply will be allocated on a pro-rata basis, based on acreage owned or leased by the applicant.
3. Upon written request, this Application may be modified or revoked. The deposit associated with a withdrawn Application will be returned at the end of the water year providing the District has not yet taken action to acquire water in reliance upon the application. Once the District has taken action to secure water in reliance on applications, applicants are obligated to purchase the Supplemental Water unless the District or Applicant can find another buyer.
4. Once the water has been acquired, the District will invoice the applicant for the final cost and payment will be due within 30 days. If payment is not received by the due date, there will be a 5% penalty plus interest charged, at the rate of 1% per month, compounded monthly.
5. Supplemental Water cannot be transferred outside of the District.

I hereby request the quantity of Supplemental Water shown below. I have read and understand the provisions set forth in this Application. I recognize that the \$200.00 per acre-foot is for the acquisition of Supplemental Water and that this price does not include the \$21.42 per acre-foot that the District will charge for conveyance, operation and maintenance (O&M), and administration.

\*Quantity Requested: \_\_\_\_\_ AF      Enclosed Deposit (AF x \$20/AF): \$ \_\_\_\_\_

**\*I recognize that Pool 2 water, which is made available through other growers setting aside land, will be made available each month consistent with the District's allocation schedule.**

I am a CCID landowner and wish to apply for Supplemental Water.
