Date: April 14, 2020

WATER SUPPLY UPDATE

On April 13, 2020 we received notice from the Bureau of Reclamation that we have been declared **Critical** under the Exchange Contract. Below you will find the tiered pricing allocation. Any water used starting January 1, 2020 will be counted towards your allocation. Your Tier 1 allocation will remain at $13/acre-foot in April and will increase to $17/acre-foot starting May 1st.

Tier 1 – 2.5 acre-feet/gross acre - $17.00 /acre-foot

Tier 2 – 0.5 acre-feet/gross acre (CCID Well Water) - $40.00 /acre-foot

SUPPLEMENTAL POOL WATER

Applications for Pool 1 (Purchased Well Water) are now being accepted through May 1st. Please contact the office if you wish to purchase private well water from the district. Included herein is the application for the Supplemental Water program. The District will review the applications and prorate the supply with the demand. We will continue to monitor the need for supplemental water and notify those that signed up by May 15th of their share of this program.

DEVELOPED WATER –CLASS II LANDS –IMPORTANT NOTICE

There will be no District water available for Class II lands effective immediately. We will, however, transport private well water for those who have access to wells that can be pumped into our canals. The water will be subject to a $2.00 per acre-foot transportation/administrative charge, and a loss factor related to the field's distance from a well source.

UPDATES

There is a chance that based on future hydrology, Reclamation updates our designation back to Non-Critical. If this happens, the District will send out a prompt water supply update. As always feel free to contact the office if you have any questions at (209) 826-1421.

Cordially,

Jarrett Martin
General Manager
