Subject: Supplemental Water

On February 16, the District received notice from the Bureau of Reclamation that we have been declared Critical. As a result, Class 2 lands were notified that the District did not have water available for delivery but would facilitate delivering well water.

This year has proven to be extremely challenging. However, the District was able to acquire up to 1,500 a.f. of supplemental water. We will make this block of water available to Class II lands at a price of \$160.00 a.f., which is the out of pocket cost to the District to secure the water.

If you would like to buy any of this water, please fill out the attached form and return it to the District by May 14, 2021. Based on demands the District may need to prorate the amount requested.
