To: All CCID Landowners and Water Users

Date: February 16, 2022

WATER SUPPLY UPDATE

Last night we received notice from the Bureau of Reclamation that we have been declared **CRITICAL** under the Exchange Contract. Below you will find the tiered pricing allocation. **Note that your allocation is effective January 1st through December 31st this year.**

Tier 1 – 2.5 acre-feet/gross acre - \$20.00 /acre-foot

Tier 2 – 0.5 acre-feet/gross acre (CCID Well Water) - \$50.00 /acre-foot

SUPPLEMENTAL POOL WATER

Applications for Pool 1 (Purchased Well Water) are now being accepted through March 18th. Please contact the office if you wish to purchase private well water from the District. Included herein is the application for the Supplemental Water program. The District will review the applications and prorate the supply with the demand. Submitting an application for supplemental water will be used for planning purposes only at this time. Once we have a clear understanding of how much supplemental water our growers have requested, we will formalize a contract to secure the available water in April.

In addition to the supplemental pool program, the District will facilitate landowners pumping on behalf of other landowners. The water will be subject to a \$2.00 per acre-foot transportation/administrative charge, and a loss factor related to the field's distance from a well source.

DEVELOPED WATER –CLASS II LANDS –IMPORTANT NOTICE

There will be no District water available for Class II lands. We will, however, transport private well water for those who have access to wells that can be pumped into our canals. The water will be subject to a \$2.00 per acre-foot transportation/administrative charge, and a loss factor related to the field's distance from a well source.

UPDATES

There is a chance that based on future hydrology, Reclamation updates our designation back to Non-Critical. If this happens, the District will send out a prompt water supply update. As always feel free to contact the office if you have any questions at (209) 826-1421.

Our annual grower meeting will be in person this year on March 29th at 6 pm at the Los Banos Fairgrounds. Please call the main office to RSVP.

Cordially,

2022 Supplemental Water Application Open Enrollment

Agreement to Purchase Private Well Water

I wish to purchase _____ a.f. of well water from Central California Irrigation District for \$100.00 a.f.

I hereby agree to prepay for all supplemental water that has been approved for my use prior to receiving water. All supplemental water will be used prior to allocated water that is available to individuals account.

I hereby agree to indemnify and hold the Central California Irrigation District harmless from any liability, or claim of liability, resulting from this purchase of all or any portion of the water to which I am entitled during 2022.
